

### **Special Examination Instructions:**

**1. There are five essay questions on this exam. Although the exam is designed as a two hour exam, you will have three hours to take the exam. This means you should allocate approximately 36 minutes per question. Each question will count for the same percentage of the points awarded on the exam.**

**2. For this exam, if you are handwriting your answers, you are limited to the space provided on the exam itself. (In other words, do not use bluebooks for your answers.) If you are composing the exam answers on computer, for EACH of the questions you are limited to one page, double-spaced (22 lines) for your answer. (And please use size 12 or larger font and standard margins.)**

**3. You may use the statute book, the Whaley text, and any class notes or student-generated outlines in answering this exam. You may not use commercial outlines or handbooks.**

**4. I suggest you use the “IRAC” method to structure your answers. That is, state the Issue, identify the applicable Rule, Apply the rule to the facts, and give a Conclusion. FOR THE RULE, include (1) a citation to the UCC or other relevant statute AND (2) a paraphrase or quote of the RELEVANT statutory language. Failure to identify the rule and give its substance will result in a loss of points.**

**GOOD LUCK!**
